The United States will become a place where new **HIV infections are rare** and when they do occur, every person regardless of age, gender, race/ethnicity, sexual orientation, gender identity or socio-economic circumstance, will have **unfettered access** to high quality, life-extending care, **free from stigma and discrimination**.

NATIONAL HIV/AIDS STRATEGY VISION

Learn more at www.AIDS.gov

The purpose of the **National HIV/AIDS Strategy** is to provide a **roadmap** for public and private stakeholders to better address the serious, ongoing HIV epidemic in the United States.

The **three primary goals** focus on:

1. reducing the number of people who become infected with HIV,
2. increasing access to care and optimizing health outcomes for people living with HIV, and
3. reducing HIV-related health disparities.
