READY SET PrEP

READY, SET, PrEP IS PART OF ENDING THE HIV EPIDEMIC: A PLAN FOR AMERICA

The initiative's goal is to reduce the number of new HIV infections in the U.S. by:

75% IN 5 YEARS

90% BY 2030

What if there were a pill that could help prevent HIV?

THERE IS.

Pre-exposure prophylaxis (or PrEP) is a way to prevent people who do not have HIV from getting HIV, by taking one pill every day as prescribed.

The Ready, Set, PrEP program makes PrEP medications available at no cost for people who qualify.

HOW CAN I ENROLL IN THE READY, SET, PrEP PROGRAM?

To receive PrEP medication through the Ready, Set, PrEP program, you must:

- **Test negative for HIV**
- **Have a valid prescription from your healthcare provider**
- ***Not* have insurance that covers prescription drugs**

WHERE CAN I LEARN MORE AND APPLY FOR THE PROGRAM?

Find out if PrEP medication is right for you. Talk to your healthcare professional or find a provider at locator.hiv.gov.
