HOW IT WORKS

Step 1

Identify underserved communities

Step 2

Establish strong local community partnerships

Step 3

Host community events and provide preventive health screening services

Step 4

Review health screening results with patients

Step 5

Provide individualized health education information to improve health and wellness.

Step 6

Take home packet with educational information/resources and refer patient to Federally Qualified Health Center

Step 7

Follow-Up to determine if participant was successfully connected with care or need additional resources.
