

Ending the HIV Epidemic

Virtual Town Hall!

Community engagement is paramount to the success of Ending the HIV Epidemic!

Ending the HIV Epidemic: A Plan for America (EHE) is a bold plan that requires broad and robust community engagement. CDC, in conjunction with our funded Capacity Building Assistance Provider Network (CPN) Technical Assistance (TA) Providers, is convening a series of virtual **Regional Community Engagement Town Hall Sessions**. The purpose of these sessions is to educate, encourage, and empower community members to participate in local EHE planning processes. For more information on EHE: <https://www.cdc.gov/endinghiv/index.html>.

We are inviting “new voices” and previously unheard local community members and organizations to these regional town halls, specifically, representatives of priority populations such as people with HIV, African Americans/Blacks, Hispanics/Latinos, men who have sex with men, and transgender individuals. Stakeholders from EHE Phase I jurisdictions including local community members, HIV planning group members, community-based organizations, and health departments are invited to select their region from the list below and register at the link provided.

To register for the scheduled virtual session in your region, please click the appropriate link below
