

FY 2018 SMAIF PROJECTS

Agency	Project Title	Project Description	FY 18 Award
CDC	Developing tools to engage adolescent men who have sex with men (Continuation project)	Use of formative research to support the development of tools and other resources to engage adolescent MSM in HIV prevention efforts.	\$500,000
CDC	Increase access to care for black men who have sex with men (Continuation project)	Provide in-person assistance interventions following HIV testing to help black MSM enroll in health insurance.	\$500,000
CDC	Pre-exposure Prophylaxis implementation, Data to Care and evaluation for Hispanic/Latino men who have sex with men (Continuation project)	Use molecular surveillance data to pinpoint networks with active HIV transmission among Hispanic/Latino MSM and envelop those networks in a combination of high-impact public health prevention efforts.	\$3,500,000
CDC	National HIV Behavioral Surveillance among transgender women (Continuation project)	Implement National HIV Behavioral Surveillance among transgender women to conduct a population needs assessment regarding HIV risk behaviors, gaps and barriers to services, and other experiences of transwomen within racial and ethnic minority populations.	\$1,016,618
CDC	Capacity-Building assistance for transgender-serving community-based, faith-based, and other grassroots organizations that address HIV prevention, care and treatment for racial/ethnic minority transgender women (Continuation project)	Increase the capacity of community based organizations to reduce the social and structural barriers that transgender women of color experience when seeking HIV prevention and care in their communities.	\$665,000
CDC	Developing comprehensive models of HIV prevention and care services for men who have sex with men of color (THRIVE) (Continuation Demo project)	State health departments develop a comprehensive collaborative of health and social service providers services to respond to the prevention and health care needs of MSM of color living with or at high risk for HIV infection.	\$16,500,000
CDC	Accelerating the Dissemination of Information, Training, and Tools in Support of Treatment as Prevention and Viral Suppression (New project)	Development of a campaign wave across CDC's Act Against AIDS portfolio that focuses on accelerating the dissemination of information, training, and tools to support messaging about treatment as prevention and viral suppression to HIV care providers and consumers, with focus on reaching racial and ethnic minorities.	\$1,650,000

FY 2018 SMAIF PROJECTS

CDC	Implementing the Screening, Brief Intervention and Referral to Treatment (SBIRT) Model in Targeted Highly Effective Interventions to Reverse the HIV Epidemic (THRIVE) Testing and Care Sites- CDC/SAMHSA split (New project)	The integration the SBIRT treatment model into HIV testing, prevention, and treatment at sites under the THRIVE program. SBIRT is intended to improve outcomes in the HIV prevention and care continuum among people with substance use disorder living with or at risk for HIV through the linkage to substance use disorder treatment and care services.	\$575,000
CDC	OMH Project: OMH State HIV Initiative (New project)	Increase the capacity of state offices of minority health to provide trainings on national HIV priorities, viral suppression, PrEP, and HCV co-infection.	\$1,000,000
HRSA	Improving HIV Outcomes Through the Coordination of Supportive Employment and Housing Services (Continuation project)	Coordinate housing and employment services to improve health outcomes along the HIV care continuum. Evaluate project to assess how this coordinated intervention impacts health outcomes and improves social determinants of health for PLWH.	\$2,000,000
HRSA	Jurisdictional Public Health Approach to HCV Diagnosis and Treatment of Co-Infected Individuals (Continuation project)	Enhance the infrastructure and capacity of Ryan White HIV/AIDS Program Part A and/or B recipients to rapidly expand HCV testing and treatment through provider and patient education, technical assistance, and structural improvements to increase access to care and adherence.	\$3,750,000
HRSA	Improving Access to Care: Using Community Health Workers to Improve Linkage/Retention in Care (Among People of Color) (Continuation project)	Increase the utilization of community health workers to improve access to health care and health outcomes for PLWH by strengthening the health care workforce, to build healthier communities and to achieve health equity.	\$2,000,000
HRSA	People Living with HIV (PLWH) Leadership and Training [Leadership Training for People of Color Living with HIV] (Continuation project)	PLWH leadership and planning support training that will develop digital tools to enable HIV+ persons to participate on planning bodies, on care teams, in organizations, board of directors, etc.	\$1,000,000
HRSA	Building Care and Prevention Capacity: Addressing the HIV Care Continuum in Southern Metropolitan Areas and States (Continuation project)	Assist southern metropolitan areas to make improvements in their HIV prevention/care continuum through TA and training.	\$1,000,000

FY 2018 SMAIF PROJECTS

HRSA	Multi-Agency HIV Hepatitis C Screening, Treatment and Cure Collaborative (Continuation Demo project)	Improve HCV surveillance and use data to facilitate care, treatment and cure of HCV in jurisdictions affected by HIV/HCV co-infection among minority populations.	\$4,509,571
HRSA	Ryan White HIV/AIDS Program Successful and Impactful Recipients Strategies and Interventions Inventory (New project)	Develop, pilot, and implement a methodology to systematically catalogue RWHAP recipients and SMAIF-funded strategies and interventions that have demonstrated success for improving HIV-related health outcomes for Blacks and Latinos.	\$1,000,000
IHS	Disseminating Effective Adolescent Health Interventions in AI/AN Communities (Continuation project)	The Northwest Portland Area Indian Health Board will work closely with established and new partners to promote the use of HIV prevention behavioral interventions within existing systems of care to reach at-risk AI/AN youth.	\$200,000
IHS	National Screening Implementation (Continuation project)	HIV program indicators monitoring technical assistance to expand the capacity of providers to diagnose and treat AI/AN people with HIV/AIDS and/or HCV.	\$580,000
IHS	Retention and Re-Engagement in Care (Continuation project)	Medical informatics tools and adherence support to improve entry and/or re-engagement into care, and improve quality of HIV care for PLWHA.	\$1,050,000
IHS	Outreach/Education Activities for Youth (Continuation project)	Social marketing and social media to reduce new HIV infections among AI/AN youth.	\$200,000
IHS	Regional Model: Expansion of HIV/HCV Treatment (Continuation project)	Increase clinical capacity for screening, linkage to care, and treatment for HIV and HIV/HCV co-infection in Great Plains Area and Oklahoma Area.	\$935,000
IHS	Healthy Native Youth: Disseminating HIV Prevention Interventions to American Indian and Alaska Native Youth, Their Families, and the Organizations that Serve Them (New project)	Capacity building through HealthyNativeYouth.org website to provide outreach, education and technical assistance to tribes and tribal organizations to improve their adoption and utilization of HIV prevention best practices and models of care.	\$650,000
OMH	OMH State HIV Initiative (New project)	Increase the capacity of state offices of minority health to provide trainings on national HIV priorities, viral suppression, PrEP, and HCV co-infection.	\$1,000,000 *Funds Distributed to CDC

FY 2018 SMAIF PROJECTS

OPA	OPA Prevention Project: Evidence-based promotion of access to PrEP within Title X funded family planning services projects (Continuation project)	Development and dissemination of an evidence-based algorithm to provide PrEP services within Title X funded family planning services projects.	\$300,000
OHAIDP	HIV.gov (Continuation project)	Reduce health disparities among racial/ethnic minorities by: 1) Promoting the National HIV/AIDS Strategy; 2) Using emerging technologies and social marketing campaigns to promote: expanded HIV testing; retention or re-engagement in HIV care and treatment; and strategies to address and reduce HIV-related stigma, homophobia, transphobia, and discrimination; and 3) Coordinating across our MAI and other partners.	\$2,500,000
OHAIDP	SMAIF Program Support (Continuation project)	Provide support for the SMAIF programs site visits, reports, and other essential materials.	\$130,000
OHAIDP	NHAS & SMAIF Materials and Communications Development (New project)	The development of NHAS and SMAIF materials and communications.	\$273,549
RHA	HIV/AIDS Regional Resource Network Program (Continuation project)	Develop enriched provider awareness and training for PrEP; impactful social media and digital strategies; and an enhanced approach with community partners to develop programs to address social barriers to accessing HIV care.	\$799,033 6 month contract
SAMHSA	Opioid/HIV Capacity Building Initiative: Prevention Navigator Supplement Program (Opioid/HIV Capacity Building Initiative) (New project)	Building the capacity of community based programs to focus on opioid and HIV prevention efforts among minority youth populations ages 18-24 using a peer navigator approach to link participants to coordinated care in medical, prevention and social services.	\$1,200,000
SAMHSA	Implementing the Screening, Brief Intervention and Referral to Treatment (SBIRT) Model in Targeted Highly Effective Interventions to Reverse the HIV Epidemic (THRIVE) Testing and Care Sites (New project)	The integration the SBIRT treatment model into HIV testing, prevention, and treatment at sites under the THRIVE program. SBIRT is intended to improve outcomes in the HIV prevention and care continuum among people with substance use disorder living with or at risk for HIV through the linkage to substance use disorder treatment and care services.	\$220,000
		Total	\$50,203,771
