WEBINAR
Hepatitis C Prevention Opportunities among People Who Inject Drugs – Confronting the Growing Epidemic

Tuesday, April 28, 2015 from 1:00-2:00 PM (ET)

PRESENTER BIOGRAPHIES

Jon E. Zibbell, PhD, is a health scientist at the Centers for Disease Control in the Division of Viral Hepatitis where he conducts research on the prevention and care of hepatitis C virus (HCV) among persons who inject drugs. Dr. Zibbell is a medical anthropologist with over 15 years of field experience in the areas of illicit drug use, addiction, accidental overdose and injection-related health.

Holly Hagan, PhD, MPH, RN, is a Professor at New York University College of Nursing and Co-Director of the NIH Center for Drug Use and HIV Research at NYU. She received her doctorate in Epidemiology from the University of Washington School of Public Health and Community Medicine. Dr. Hagan’s research has principally focused on the infectious disease consequences of substance use, and her main interest is in reducing the burden of hepatitis C virus infection in people who inject drugs.
