Pre-exposure prophylaxis (or PrEP) is a way to prevent people who do not have HIV from getting HIV, by taking one pill every day as prescribed.

What if there were a pill that could help prevent HIV?

There is.
Ready, Set, PrEP is part of ending the HIV epidemic: a plan for America

The initiative's goal is to reduce the number of new HIV infections in the U.S. by:

- **75%** in 5 years
- **90%** by 2030

The Ready, Set, PrEP program makes PrEP medications available at no cost for people who qualify.

**How can I enroll in the Ready, Set, PrEP program?**

To receive PrEP medication through the Ready, Set, PrEP program, you must:

- Test negative for HIV
- Have a valid prescription from your healthcare provider
- Not have insurance that covers prescription drugs

**Where can I learn more and apply for the program?**

Find out if PrEP medication is right for you. Talk to your healthcare professional or find a provider at locator.hiv.gov.
